

Blätter für Saxofone

Frank Wess

Wood Stone reeds are very good. Good cane, beautifully cut and more consistent than any other reed I've used. I recommend them highly.

*Using the number : Tenor - #2½

WOOD STONE HAND SELECTED REED

Once you play, you can find the reason why the Wood Stone reed is loved by many players. This reed is made of the finest cane from the Var area located in southeast France, which is the famous area for cultivating quality cane. Our craftsmen check and select reeds one by one carefully so that they are very consistent. The saxophone reed is suitable especially for Jazz because of its edge sound. Five reeds per box.

5 reeds per box.

Bob Mintzer

The Ishimori-Wood Stone reeds are incredibly consistent, vibrant and long-lasting. The reeds have an even, dark tone that spans the full range of the instrument I can't say enough about these reeds. They simply work great!
